March 2010

Project Correction! Cornerstone Baptist Church Shelbyville, Tennessee

Fairbanks, Alaska Brother Les Zerbe July 5-14, 2010

Well, what can I say--I goofed. For some reason I had the dates for the second team printed incorrectly in our last newsletter. The correct work team dates are as follows:

Team 1 : Framing, April 23 - May 1

Team 2: Siding, May 1-8

I am sorry for any inconvenience this has caused anyone.

We are still in need of those who would be willing to be a part of the second team to help with siding, soffits, and fascia. If there are any of you who have experience in these skills, please consider going to Tennessee for the first week in May. I know you will receive as many blessings as you give.

The framing team dates are April 23 - May 1. While the need at this time seems to be for siders, if you are able to help with the framing during those dates, you are more than welcome to come and help.

The cost to help with this trip will be your transportation to and from Shelbyville, as Cornerstone will be covering lodging and food costs for the construction teams. Please call me if you are interested so that we can plan for your accommodations.

We still have open seats for this mission trip to help Brother Zerbe. We are in need of mechanics, carpenters, general laborers, and equipment operators. Specifically, WE NEED YOU! We will be working on vehicles, doing some carpentry, installing an air compressor/air lines, installing a furnace, as well as doing other miscellaneous projects.

Please prayerfully consider if you could be a part of this team.

The cost for this trip is \$1800, of which the major portion is the airfare. If you are interested in going, please contact me as soon as possible for the application.

And That's What It's All About

As you can imagine, there are literally hundreds of people that the Lord has put me in contact with through the ministry of *The Master's Craftsmen*. And the reality is that people are really what this ministry is about, not building buildings.

While I was on the survey trip for Brother Reeves's project in Shelbyville, Tennessee, I was contacted by a Brother Pleasant in Kentucky, who has an excavation business. He expressed an interest in helping TMC by using his talents and resources doing excavation. Considering Brother Steve Pleasant is only three hours from Brother Reeves, it was a natural fit for him to help with the site work for the project.

Now this in itself is obviously the hand of the Lord working, that someone so close to the project just happened to call me wanting to help just at the exact time it was needed. But the story gets even better!

Brother Pleasant loaded up his equipment and went to Shelbyville to do the site work along with his son Jonathan. During the time they were working on the project together with Pastor Reeves, Jonathan realized he needed Christ as his personal saviour and got saved!! Praise the Lord!

And that, my dear Christian friends, is what it is all about. *The Master's Craftsmen* ministry just uses building churches to get people in God's way so that He can deal with them, whatever their needs may be. It may be a need for salvation, to strengthen their Christian walk, or to surrender to full time service.

Like Jonathan's, many lives have been changed during a mission trip. Congratulations, Jonathan!
