

Supporting Trained National Pastors through Fundamental Baptist Churches, Missionaries, and Mission Agencies

July 24, 2005

Dear Friend of the Omega Ministry,

Since the Omega Ministry began in March of 2003 we have worked in cooperation with more than 40 Baptist sending agencies and 500 Baptist missionaries. We have sent financial help through them to more than a thousand church planters and national pastors. Only eternity will reveal how many souls have been saved and baptized through their works. We praise the Lord for more than a thousand new Baptist churches that have been planted in more than 50 countries world wide!!

However, the Omega funding is limited and we are actively seeking more churches and individuals who can help support this vital ministry. The only way we can continue to help these missionaries and new churches is if God's people will rally behind this ministry financially. We are asking each one who has benefited from Omega to do two things:

1. Pray for God to continue to bless and use Omega.
2. Contact your sending church and your supporting churches and ask them to help fund Omega. If they will contact us, we will arrange for a representative to present the need in their church (or we will send literature that will enable the pastor to present it to his deacons, mission committee and church.)

Those who have been served by Omega have sent many glowing reports of appreciation. There is still a tremendous need for new national pastors to be helped with temporary support for their first two years. Please feel free to forward this letter to your church and other pastors you know for prayer and consideration. There is not another ministry in America that operates with less overhead, more effectiveness, and full accountability. We are happy to answer any questions that anyone may have. We look forward to your help with this tremendous ministry. More information is available at www.wyldewood.org/omega
